

DATA SHEET

DEEMULSIFIER

Product name: SWO 5263V
Description: Emulsion breaker.
Maker: Oilflux™
Calle Migdia 37, 7th floor CP 17002
Girona, Spain.
Emergency: +34 695949325

Product description: Mixture.

Characteristics:

Emulsion breaker.

Instructions:

For its application, please consult our technical team for recommendations on its use and application form.

Properties

Physical state: Liquid
Appearance: Clear Yellow to Brown
Odor threshold: Characteristic
Formula Weight: Mixtures
Density: 0.9 - 0.95 g/cm³
pH: 4-6
Kinematic Viscosity (cST at 40 ° C): Not available
Water solubility: Insoluble
Other solubilities: Not available
Flash point (° C): ≥60

Handle:

Normal precautions for industrial chemicals apply. See Safety Data Sheet for specific instructions. It should not be mixed with water or aqueous solvents.

Availability:

The product It is available in 200L and 1000L IBC drums.
